

Flow Chart of the Final Round: Pomperaug High School, December 9, 2006¹

The final round was between Ridgefield (-----² and Meredith Greenburg) on the Affirmative and Newtown (Nico Bonvini and Gavin Newton-Tanzer) on the Negative. The debate was won by Newtown.

Format Key

It's hard to reproduce notes taken on an 11" by 14" artist pad on printed paper. The three pages below are an attempt to do so. The first page covers the constructive speeches, the second page covers the cross-ex, and the third page covers the rebuttal. The pages are intended to be arranged as follows, which is how my actual flow chart is arranged:

Note that the first page containing the constructive speeches always has arguments related to the Affirmative contentions at the top, and those relating to the Negative contentions at the bottom. This is not how the speeches may have been presented, in that often a speaker will deal with Negative arguments prior to the Affirmative. The “transcript” version of this chart presents the arguments in each speech as presented.

The chart uses “A1,” “N2,” etc. to refer to the Affirmative first contention, the Negative second contention and so forth. It also uses the following abbreviations:

“CoR”: Conversations on Race, a video discussion program between two high schools

“Brown”: Brown v Board of Education

³ I will use “A1” to indicate the Affirmative’s first contentions, “N2” to indicate the Negative’s second contention and so forth.

⁴ This introduces an abbreviation. I will use “Brown” to refer to the “Brown vs The Board of Education” case in the remainder of the document

⁵ “A Better Chance,” a program that brings disadvantaged students to live and study in suburban towns and schools.

	<p>2) N1: Implementing the resolution is just masking the problem</p> <p>a) We agree that social inequalities are a problem</p> <p>b) But the Affirmative can't tell us how much integration we need to solve the problem</p> <p>c) So the Affirmative can't show us they will get the benefit of equality, but are simply claiming that they will</p> <p>3) N2: Implementing the resolution will worsen the situation</p> <p>a) Forced integration is needed, but people are adverse to forced association with others</p> <p>b) There will be a backlash and increased animosity between groups</p> <p>4) N3: There are better alternatives to the resolution</p> <p>a) Newtown HS has the "Conversations on Race" ("CoR") program</p> <p>i) Videoconference discussions with students from Bassick HS in Bridgeport</p> <p>ii) No movement of students, but the same benefits of interaction</p> <p>b) Government can use the funds the Affirmative would have to spend to fund similar programs</p>	<p>b) It's a right guaranteed by the 14th amendment</p> <p>3) N3: How could be fund all these poor schools</p> <p>a) The US has an \$80 billion deficit</p> <p>b) The US has large social security and welfare needs</p>

Cross-ex of First Affirmative	Cross-ex of First Negative	Cross-ex of Second Affirmative	Cross-ex of Second Negative
<p>1) Does the Affirmative advocate forced integration? We don't want to force individuals to participate but want to use a variety of incentives</p> <p>1) Can you clarify that? We will offer them a choice of schools</p> <p>2) How much desegregation do we need to obtain the advantages you claim? Not 50/50, but certainly it has to be extensive</p> <p>3) At what point? Not sure</p> <p>4) Who decides when where to draw the line? We can determine if from the census, and the school board can decide</p> <p>5) Who decides? Local government</p> <p>6) Who comprises "local government?" Local officials</p> <p>7) Who elects them? Local citizens</p> <p>8) What stops the local school board from using factors other than race? They have to bring about increased diversity</p> <p>9) So you advocate forced integration? To a certain extent</p>	<p>1) Should we always do nothing just because we can't measure the results? We've provided an alternative set of actions.</p> <p>2) Where would the funds for your programs come from? It can't be free to integrate under the resolution. We'd use the same funds you would</p> <p>3) Where? Same funds as would pay for forced integration.</p> <p>4) Why hasn't it been done already? It could be done</p> <p>5) Where does the resolution say we have to spend money or increase taxes? Then you have the same taxes and money going into bad schools.</p> <p>6) So you advocate increasing taxes? It's better to move money than to move kids</p> <p>7) Wouldn't improving the schools cost more than busing? We'd spend the same amount</p> <p>8) Don't you agree it's more costly to change all the schools? Depends on where the cutoff is.</p>	<p>1) Is direct contact the only way to experience something? Yes</p> <p>2) Why do we take history courses? To learn about other times</p> <p>3) Can you go back in time to experience it? No</p> <p>4) Do we recognize lessons from history, like slavery is bad? Slavery has been repeated</p> <p>5) Do you have to experience slavery to know its bad? No</p> <p>6) Is slavery bad? Yes</p> <p>7) You say the resolution will bring equality of opportunity? Yes</p> <p>8) How will we know? That's not relevant</p> <p>9) Then how do we know the resolution will bring any benefit? We are so far from equality now that anything is an improvement</p> <p>10) When you toss opposites together do they tend to be nice to each other? No</p> <p>11) Is dissent in the form of violence acceptable? No</p> <p>12) Doesn't forced association lead to violence? You have to look at the whole picture, not one small part</p> <p>13) Are you saying violence never occurs?</p>	<p>1) When did the Affirmative ever advocate force? Force implies violence.</p> <p>2) Isn't racism the result of ignorance? It comes from years of ideology</p> <p>3) Isn't that ideology based on ignorance? There is a history of prejudice, 200 or more years of parents teaching children</p> <p>4) Isn't education the way to fix this ignorance? Forced integration isn't the way</p> <p>5) When did the Affirmative advocate force? Is an implication of your first contention—you have to put the poor into rich schools.</p> <p>6) Isn't your spending these alternative programs a form of wealth redistribution? We don't have to advocate alternatives. If the money is available for the Affirmative proposal, then the Negative proposal is better; if there is no money, then the resolution won't work</p>
